INTRODUCTION

*American
Osteopathic Board of
Orthopedic Surgery*

The American Osteopathic Board of Orthopedic Surgery (AOBOS) recognizes the need for Certificates of Added Qualifications (CAQ) for various orthopedic subspecialties. Several subspecialties have expressed interest in this process, but at this time the only CAQ available is in Hand Surgery. The AOBOS offers the same service to any other subspecialty that expresses sufficient interest and need for such an exam.

The examination is a one hundred question multiple-choice examination with questions taken from all areas of hand surgery. The source material for the examination questions is not limited to any particular text or journal.

The Hand Surgery CAQ examination will be given every other year (in even years) at the American Osteopathic Academy of Orthopedics' fall meeting on an as needed basis.

The CAQ examination will be given at the American Osteopathic Academy of Orthopedics fall meeting, every other year (in even years). The time and date of the examination will be announced prior to the examination. Please report to the examination room fifteen (15) minutes prior to the examination for registration.

The examination will consist of one hundred (100) A type (one best answer) multiple choice questions. The examination is given as one part, and two hours is the maximum time allowed for the examination. No breaks will be given during the examination.
