INTRODUCTION TO OCC

*American
Osteopathic Board of
Orthopedic Surgery*

Certified physicians are committed to life-long learning, higher standards and to practicing the highest quality patient care. The health care system in the United States is evolving, and the certification/recertification examination model is no longer the competitive standard, or the standard demanded by the public.

With the advent of more rigorous quality models, the American Osteopathic Association (AOA) and its entire associated specialty certifying boards, under the direction of the Bureau of Osteopathic Specialists (BOS) has developed Osteopathic Continuous Certification (OCC) to help meet and exceed industry and regulatory requirements.

The BOS has mandated that the AOBOS implement OCC for Orthopedic Surgery by January 1, 2013. If you hold a time-limited certification, you will be required to participate in all components of OCC to maintain your certification. If you hold a non-time-limited (formerly referred to as lifetime) certification, you will not be required to participate in OCC at this time. However, you are strongly encouraged to participate, particularly as more states begin to require a maintenance of certification process in order to maintain licensure.

The AOBOS uses a 10 year OCC cycle.

Non-compliance with OCC may lead to a loss of board certification.

OCC Philosophy

The AOBOS recognizes the following:

1. A continuous quality improvement process in patient care promotes the identification of opportunities to improve patient care, the development of methods to address identified quality gaps in patient care, and the implementation of plans to improve and re-measure patient care.
2. Augmenting the certification process with a continuous quality improvement process provides physicians with the opportunity to evaluate and improve their knowledge base, facilitating the incorporation of evidence-based medicine into their practices.
3. There is a growing expectation by the public governmental agencies, licensure bodies, health plans and employers for an Osteopathic Orthopedic Surgery continuing certification process.
4. Osteopathic continuous certification will ultimately provide better patient care and a consistent method for the evaluation of osteopathic orthopedic surgery care nationally.

INTRODUCTION

(continued)

OCC Components

As a certified osteopathic orthopedic surgeon, you will be required to participate in all five (5) components of OCC to maintain your certification. The components are: Unrestricted Licensure; Lifelong Learning/CME; Cognitive Assessment; Practice Performance Assessment and Improvement; and Continuous AOA Membership.

As a board certified orthopedic surgeon, you are already participating in four of the five components. Component 4 – Practice Performance Assessment and Improvement is the only NEW requirement for maintaining certification through OCC.

A brief overview of each component is listed in this Introduction to OCC section. Each component will be discussed in more detail later in the OCC Handbook.

Component 1: Unrestricted Licensure

AOA board certified orthopedic surgeons must hold a valid, unrestricted license to practice medicine in one of the 50 states or territories. In addition, adherence to the AOA's Code of Ethics is required as part of this component.

Component 2: Lifelong Learning/Continuing Medical Education (CME)

Each osteopathic board certified orthopedic surgeon must fulfill a minimum of 120 hours of CME credit during each three-year CME cycle. Of these, 50 hours must be in orthopedic surgery.

Of the 50 specialty CMEs required each three year cycle, 15 hours must come from osteopathic orthopedic surgery programs (AOAO).

As a new OCC lifelong learning/CME activity, you will be required to complete 15 hours of self-assessment activities.

Component 3: Cognitive Assessment

Every 10 years, each time-limited certificate holder participating in OCC must successfully complete the AOBOS OCC Examination (Component 3) or the alternate OCC Examination via Clinical Pathway. These psychometrically valid exams assess each orthopedic surgeon's medical knowledge as well as core competencies in the provision of health care.

INTRODUCTION

(continued)

Component 4: Practice Performance Assessment and Improvement

Each physician in OCC must engage in continuous quality improvement through the comparison of their personal practice performance measured against national standards for orthopedic surgery.

The AOBOS has several different, chart based, online modules available. The completion of one complete module will be required each three-year CME cycle.

Component 5: Continuous AOA Membership

Continuous AOA membership is a required component for OCC compliance. Membership in the AOA provides each physician with connections to the professional osteopathic community, online technology, practice management assistance, national advocacy for DOs and the profession, professional publications and continuous medical education opportunities.

REQUIREMENTS FOR OCC

*American
Osteopathic Board of
Orthopedic Surgery*

To be eligible for Osteopathic Continuous Certification in Orthopedic Surgery by the American Osteopathic Board of Orthopedic Surgery, the physician must meet the following minimum requirements.

- A. The physician must be a graduate of an AOA accredited college of Osteopathic Medicine.
- B. The physician must hold an unrestricted license to practice in the state or territory where his/her practice is conducted.
- C. The physician must be able to show evidence of conformity to the standards set in the Code of Ethics of the American Osteopathic Association.
- D. The physician must be a member in good standing of the American Osteopathic Association.
- E. The physician must have been previously certified in orthopedic surgery either by the American Osteopathic Board of Surgery (prior to July 1, 1979) or the American Osteopathic Board of Orthopedic Surgery (after July 1, 1979).
- F. The physician must currently practice the specialty of orthopedic surgery.

REGISTERING FOR OCC

*American
Osteopathic Board of
Orthopedic Surgery*

To become an OCC participant, the AOBOS requires each certified physician to complete the Orthopedic Surgery OCC Registration Form. This form attests to your compliance with Component 1 – Unrestricted Licensure, Component 2 – Lifelong Learning/Continuing Medical Education and Component 5 – Continuous AOA Membership.

If you are non-compliant in any of these three areas, you will need to provide a detailed written explanation of the circumstances and any corrective action plan.

The OCC Registration Form is a two page document that can be found beginning on page 10. There is a \$150 fee that must be submitted to the AOBOS with the OCC Registration Form. The signed forms are to be returned to the AOBOS office. You are not considered OCC compliant without completing the OCC registration process.

The registration form is also available for online submission on the AOBOS website, www.aobos.org.

The AOBOS must have a current Registration Form on file for time-dated certificate holders taking the Cognitive Assessment – OCC Examination component (formerly the Recertification Examination) of OCC.

Registering OCC physicians must submit the following:

- OCC Registration Form (both pages)
- Application fee of one hundred fifty dollars (\$150.00)
- Written explanation of circumstances for any non-compliant component(s)

*** NOTE: You must be board certified to register for OCC.**

OSTEOPATHIC CONTINUOUS CERTIFICATION REGISTRATION FORM

*American Osteopathic
Board of
Orthopedic Surgery*

1. I hold a valid, unrestricted license to practice in the state or territory where my practice is conducted. Yes No
In what state is your primary practice located? _____
2. I have fulfilled my 120 hours for the 2013-2015 Continuing Medical Education cycle, of which 50 hours were in the specialty of orthopedic surgery. Yes No
3. I am currently a member in good standing of the American Osteopathic Association.
 Yes No

I understand I must remain a member in good standing of the AOA. I have been a continuous member in good standing of the AOA since _____.

4. I adhere to the AOA's Code of Ethics. Yes No

If you answered NO to any of the questions above, please provide a detailed explanation of the circumstances preventing you from attaining these OCC requirements.

Fax: (312) 202-8458

READ AND SIGN THE FOLLOWING FORM

I agree to disqualification from Osteopathic Continuous Certification or from issuance of certification or to the surrender of such certification as directed by the AOBOS and/or the AOA in the event that any of the statements made by me in this application are false, or in the event any of the bylaws, rules, regulations, and requirements governing such examinations are violated by me, or in the event that I do not comply with any of the provisions of the Bylaws, Policies and Procedures of the AOBOS or the AOA.

I agree that my professional qualifications, including my moral and ethical standing in the osteopathic medical profession and my competence in clinical skills, will be evaluated by the AOBOS and that the AOBOS may make inquiry of the persons named in my application and of other persons, such as authorities or licensing bodies, hospitals, program directors, and other institutions, as the Board may deem appropriate with respect to such matters.

I agree that the sources of all information furnished to the AOBOS in connection with its inquiry shall be confidential and not subject to disclosure, through legal process or otherwise, to me or any persons acting on my behalf. I agree that the AOBOS and the AOA shall be the sole judges of my credentials and qualifications for admission to the examination for certification.

I hereby release, discharge, exonerate, and agree to hold harmless the AOA, the AOBOS, their members, trustees, officers, representatives, and agents and free from any action, suit, obligation, damage, expense, claim, demand, or complaint by reason of any action they or any one of them may take in connection with this application or the revocation of any certification issued pursuant to this application. It is understood that the decision as to whether my performance on any certification examination qualifies me for certification rests solely and exclusively with the AOBOS and the AOA, and that their decision is final. I also agree that the extent of any liability arising out of errors or omissions or other misconduct of the AOBOS or the AOA shall be limited to the amount of fees paid to the AOBOS and AOA in connection with the continuous certification process.

In the event that any dispute shall arise concerning the continuous certification content and/or administration, or any other issue relating to the continuous certification process, I understand that the AOA has an administrative appeal process available and I agree to first pursue all available administrative appeals and internal reviews before pursuing any other forms of relief.

I further agree that Illinois law, without regard to its provisions concerning conflict of laws, shall apply to the resolution of any dispute that I may have with the AOBOS or AOA.

I have this date carefully read and agreed to full compliance with the forgoing.

I have hereunto set my hands this _____ day of _____, 20____.

OCC COMPONENT 1: UNRESTRICTED LICENSURE

*American
Osteopathic Board of
Orthopedic Surgery*

Osteopathic orthopedic surgeons must hold a valid, unrestricted state medical license from one of the 50 states or Canada. In addition, the physician is required to adhere to the AOA's Code of Ethics.

Physicians with restrictions on their license will have their OCC file reviewed by the Certification Compliance Review (CCR) Committee of the Bureau of Osteopathic Specialists (BOS).

OCC participants will be required to submit a registration form to the AOBOS confirming their compliance with three of the OCC components: AOA membership, unrestricted state licensure (including adherence to the AOA's Code of Ethics) and CME requirements.

OCC COMPONENT 2: LIFELONG LEARNING/ CONTINUING MEDICAL EDUCATION

*American
Osteopathic Board of
Orthopedic Surgery*

Each osteopathic board certified orthopedic surgeon must fulfill a minimum of 120 hours of CME credit during each three-year CME cycle. Of these, 50 hours must be in the orthopedic surgery specialty area. Specialty CME may be from Category 1 or 2.

Specialty CME will be awarded for the completion of Component 4 – Practice Performance Assessment modules.

Of the 50 specialty CMEs required each three year cycle, 15 hours must come from Category 1A osteopathic orthopedic surgery programs (AOAO).

Requirements for in-person specialty CME programs are that the educational lecture must:

- Be presented by an AOA or ABMS board certified physician in the specialty topic being discussed (exceptions will be reviewed on a case-by-case basis)
- Cover topic(s) of concern to osteopathic physicians in that specialty or subspecialty

There are limits to particular types of CME which can be applied during each AOA CME cycle. These limits are found in the CME Guide for Osteopathic Physicians, available on the AOA's website, www.osteopathic.org.

As a new OCC lifelong learning/CME activity, you will be required to complete 15 credits of self-assessment activities.

The AOBOS considers the following activities as counting toward the self-assessment modules of CME for OCC:

- AOBOS Practice Performance Assessment Modules – 10 self-assessment CME credit for each module completed
- Orthopedic Surgery related Journal articles with post-tests
- American Academy of Orthopedic Surgeons (AAOS) or Journal of Bone and Joint Self-Assessment Tests

Physicians holding subspecialty certification must earn a minimum of 13 specialty hours in the subspecialty area of certification.

OCC COMPONENT 3: COGNITIVE ASSESSMENT

*American
Osteopathic Board of
Orthopedic Surgery*

OCC Examination

Every 10 years, each time-dated certificate holder participating in OCC must successfully complete the AOBOS OCC Examination (formerly recertification) or the alternate OCC Examination via Clinical Pathway. These psychometrically valid exams assess each orthopedic surgeon's medical knowledge as well as core competencies in the provision of health care.

The OCC Examination is developed by the American Osteopathic Board of Orthopedic Surgery. The questions are from the same sources as the Written Exam, but are predominantly taken from the Current Concepts and Instructional Course Lectures sections of the *Journal of Bone and Joint Surgery* and *Orthopedic Knowledge Updates*.

OCC Examination candidates must be OCC compliant to sit for the AOBOS Cognitive Assessment examination.

Each physician must complete the application for OCC Examination and submit the applicable fee (see application form) and associated required documents.

The official date of OCC certification will be when the American Osteopathic Board of Orthopedic Surgery notifies the candidate that he/she has successfully passed the examination and is being recommended to the American Osteopathic Association for OCC certification. Formal action by the Bureau of Osteopathic Specialists of the American Osteopathic Association is required to complete the process and the candidate may not claim OCC certification until notified of this action in an official letter from the AOA.

INSTRUCTIONS FOR OCC EXAMINATION VIA TEST CENTER

*American
Osteopathic Board of
Orthopedic Surgery*

The AOBOS OCC Examination is administered annually at Prometric Centers across the country. The examination is generally scheduled on a Saturday (to minimize the time away from each candidate's orthopedic practice) in early June.

How do I apply to take the exam?

Complete the OCC Examination application form and send it to the AOBOS at the address provided on the application.

What is the deadline for submitting an application?

All applications must be received in the AOBOS office by the close of business January 15th.

Applications submitted after January 15th, if accepted by the AOBOS, will be subject to a \$250 late fee.

When and how do I pay for the exam?

At the time you submit your application form, include a check made payable to **AOBOS**, or complete the online OCC Examination application.

How much does the exam cost?

The cost for the 2016 OCC Examination is \$2,700.

When are candidates eligible to take the exam?

Beginning in 2016, you have a three year window in which to take the OCC Examination. For example, if your certification expires 12/31/2018 you can take the exam in 2016, 2017 or 2018, and upon passing you will then be OCC certified until December 31st of 2028.

What about candidates with disabilities?

Candidates with documented disabilities must request specific accommodations 90 days prior to the exam application deadline. The AOBOS will work with the candidate to provide accommodations that are appropriate to the disability. Prometric testing centers are all accessible to candidates in wheelchairs. Please refer to the AOBOS ADA policy on the AOBOS website, www.aobos.org for more information.

INSTRUCTIONS FOR OCC EXAMINATION VIA TEST CENTER

(continued)

May I cancel my application?

Fees cannot be refunded after the January 15th application deadline. The AOBOS must contract for these services and has no ability to obtain a refund for a cancellation after the application deadline.

The AOBOS will refund 90% of the application fee, if the cancellation is received 30 days before the application deadline (by December 15th).

When will the exam be given?

The 2016 OCC Examination will be given on Friday, June 17, 2016.

How do I schedule an appointment to take the exam at a specific testing center?

Following the acceptance of your application, a Scheduling Permit with information and instructions for scheduling an appointment at a Prometric® Testing Center will be available to you to download approximately six weeks before the exam date. You must have your Scheduling Permit before you contact Prometric to schedule a testing appointment. You should contact Prometric as soon as you secure the permit. Prometric schedules on a first-come, first-served basis. The sooner you schedule your appointment, the more likely you will receive your preferred location.

What does the exam entail? / What will the exam cover?

The examination is a one hundred question multiple-choice examination with questions taken from the area of general orthopedic surgery. The source material for the examination is the same as the Part I - Written Exam. However, the OCC Examination focuses much more on clinical orthopedics, with very few basic science or tumor questions. An excellent way to prepare for the exam is to read the Current Concepts section and Instruction Course Lectures from the *Journal of Bone and Joint Surgery* and *Orthopedic Knowledge Updates*.

Where is the exam given?

Computer-based delivery of the exam is provided by Prometric®, a part of the Thomson Corp. There are more than 300 Prometric Testing Centers in North America. The current testing center locations are available on the Prometric website at www.prometric.com.

INSTRUCTIONS FOR OCC

EXAMINATION VIA TEST CENTER *(continued)*

Will I be notified of the test center location and appointment time?

When you contact Prometric to schedule your appointment, you will be required to provide information found only on your Scheduling Permit. Prometric will provide you with the confirmed test day and time; the address and telephone number of the Prometric Test Center where you will test; and your Prometric Confirmation Number.

What are the testing centers like?

Prometric testing centers typically consist of an office area with 7 to 15 computer testing stations. Prometric staff members will be on hand to check in candidates and supervise the testing session. When you arrive at the test center, your required identification will be checked, you will sign in on the test center log and your photograph will be taken. Also, all testing sessions are monitored by video camera. Prometric administers a variety of educational, certification, and licensure tests; therefore, you may be at a testing center along with candidates taking other computer-based tests.

What do I need to be admitted to the test center?

You should arrive at the Prometric Test Center 30 minutes before your scheduled testing time on the exam date. If you arrive late, you may not be admitted. If you arrive more than 30 minutes after your scheduled testing time, you will not be admitted. On arrival, you are required to sign in on the test center log and to present your Scheduling Permit plus one form of unexpired, government-issued identification (such as driver's license or passport) that includes **both** your photograph and signature, after which, a digital photograph will be taken. If it contains your photograph but not your signature, you can use another form of unexpired identification that contains your signature, such as an employee identification card or credit card, to supplement your photo-bearing, government-issued identification. If you do not bring your Scheduling Permit and acceptable identification, you will not be admitted to the test.

The first and last names on your identification **MUST EXACTLY MATCH** the names on your permit. The only acceptable difference would be the presence of a middle name, middle initial or suffix on one document and its absence on the other. If your name is misspelled or differs from your name as it appears on your identification, contact the AOBOS immediately. **Name changes or corrections cannot be made within 7 business days of the exam date.**

All of your personal belongings (including watches, cellular telephones, pagers and wallets), food and beverages must be placed in a small, designated locker outside the testing room. Pagers and cellular telephones must be turned off before placing them in the locker.

INSTRUCTIONS FOR OCC

EXAMINATION VIA TEST CENTER *(continued)*

How long will a test session last and what does it include?

The 3 hour test session includes:

- An optional on-line tutorial (1 to 30 minutes);
- A 50-item section (up to 68 minutes);
- An optional break (0 to 15 minutes);
- A 50-item section (up to 67 minutes);
- An on-line post-test survey (no additional time scheduled).

The maximum total testing time will be 135 minutes and the maximum total administrative time for the tutorial, break, and survey will be 45 minutes.

Time not used for the first 50-item section will **NOT** be available for the second 50-item section. Time not used for the tutorial or break will **NOT** be available for answering items.

Candidates will be free to leave as soon as they finish the test.

Candidates will be allowed to leave the test center during the test break and are not to discuss any test items with other candidates. If candidates take any test breaks, they must return to the workstation in about 10 minutes to ensure that they initiate the next section of the test before the test clock starts running. Otherwise, they will have fewer than 67 minutes for the next section.

Will there be a tutorial available before the test administration date?

Yes. A brief tutorial and sample test will be available for download on the AOBOS website, www.aobos.org, well in advance of the test date. All examinees will have the option to view the tutorial again at the test center at the beginning of the test session.

What kind of computer skills will the exam require?

The exam will use a simple, proven computer interface that will require only routine mouse, key, or cursor movements. Each item can be answered two ways:

- Move the mouse to the option bubble, left click the mouse, and depress the **Enter** key (or click on the **Next** button at the bottom of the screen), or
- Press one of five letter keys (A, B, C, D, or E) and then depress the **Enter** key (or click on the **Next** button at the bottom of the screen).

Please make sure that the bubble has been filled in before depressing the **Enter** or clicking on the **Next** key. Otherwise, your response will not be recorded.

If you accidentally proceed too quickly to the next item, it will be easy to return to the previous item to review the item, mark the item for review, or change your answer.

INSTRUCTIONS FOR OCC EXAMINATION VIA TEST CENTER *(continued)*

What will the screen look like?

A sample screen is shown below.

The screenshot shows a window titled "Exam Section : Item 1 of 18". In the top right corner, there are three small square icons. Below the title bar, on the left, is a checkbox labeled "Mark". On the right, it says "Time Remaining: 23:45" with a close button icon (a circle with an 'X'). The main content area contains a question: "A 32-year-old man has the acute onset of hematogenous osteomyelitis. Which of the following is the most likely causative organism?" followed by five radio button options: A. Escherichia coli, B. Group B Streptococcus, C. Haemophilus influenzae, D. Pseudomonas aeruginosa, and E. Staphylococcus aureus. Below the question area, it says "Select the best answer". At the bottom of the window, there are three buttons: "Next", "Item Review", and "Help".

There will be one item per screen. Each screen also includes the following features:

Upper left:	Option to Mark item for review
Upper right:	Time Remaining in section (starts at 120 minutes)
Lower left:	Next button to go to next item
Lower middle:	Item Review button to see review screen
Lower right:	Help button for additional information on test mechanics

INSTRUCTIONS FOR OCC EXAMINATION VIA TEST CENTER *(continued)*

What will the review screen look like?

A sample review screen is shown below.

The screenshot shows a review screen titled "Exam Section: Item Review". It displays a list of 18 items with their corresponding answers. The time remaining is 23:45. Below the list, there are buttons for "Review", "Review Incomplete", "End", and "Help". A "Review Item" button is also present with a text input field containing the number "1".

13.	E
14.	I
15.	I
16.	I
17.	I
18.	I

M = Marked Items I – Incomplete Items

Review Item 1

Review Review Incomplete End Help

Upper left: Number of items in the section (18 items)

Upper right: **Time Remaining** (21 minutes: 13 seconds)

Lower left: Option to **Review Marked** items

Lower middle: Option to **Review Incomplete** items

Lower right: **End** the test session

Lower right: **Help** button for additional information on test mechanics

The review screen in the tutorial (shown above) lists examinee responses to the 18 items in the tutorial. The review screen of the test will list examinee responses to the 100 test items.

INSTRUCTIONS FOR OCC EXAMINATION VIA TEST CENTER *(continued)*

Examinees may mark an item for review before answering the item (items 5 and 10) or mark it for review after answering the item (item 13). Items that have not been answered are labeled “I” for incomplete (items 14-18).

Will I be able to skip items during the exam and go back to them?

Yes. Within the 100-item test, you will be able to skip items, mark items for review, and change answers.

Will each candidate get a different length test?

No. Each examination will include 100 items. Adaptive examinations can vary in length, but the AOBOS exam will use fixed-length forms and will not be adaptive.

Does the computer-based format affect examinee performance?

Studies have shown that a change from a paper and pencil test to a computer-administered test has no significant effect on candidate performance and that most candidates prefer the computer version. Any initial anxiety usually dissipates after answering the practice items in the tutorial section.

Will the examination scores be reported on site?

No. The examination will be scored after the administration date. Candidates should expect to receive their scores approximately 8-10 weeks after taking the exam.

How will scores be reported?

Written notification will come from the AOBOS.

What will the passing score be?

The AOBOS will determine the minimum passing score.

INSTRUCTIONS FOR OCC

EXAMINATION VIA TEST CENTER *(continued)*

Irregular Behavior

Irregular behavior is defined by the Board as any behavior that undermines the application, assessment, or certification processes of the Board or that threatens the integrity of the certification process. Anyone having information or evidence that suspected irregular behavior has occurred should submit a written, signed statement to the Board providing a detailed description of the incident and/or circumstances and copies of any supporting documentation and evidence. Insofar as possible, such reports will be handled confidentially; however, the Board will not investigate and/or act on unsigned or verbal reports. Irregular behavior may occur prior to, during, and/or following examination application and administration. Such behavior may include, but is not limited to, the following:

- seeking and/or obtaining access to examination materials prior to the examination
- falsifying information on application or registration forms
- impersonating a candidate or engaging another individual to take the examination by proxy (Copying, giving, or receiving unauthorized information or assistance of any kind during the examination.)
- copying answers from another candidate or allowing answers to be copied
- making notes of any kind during an examination except on the laminated note boards provided at the test center
- memorizing and reproducing test questions and/or copyrighted information
- altering or misrepresenting scores
- failure to adhere to Prometric Test Center regulations
- possessing unauthorized materials during an examination administration (e.g., watches, recording devices, photographic equipment, electronic paging devices, cellular telephones, reference materials)
- other behavior that threatens the integrity of the exam
- causing a disturbance of any kind
- leaving the test center while the test section is open
- removing or attempting to remove erasable note board from the testing room
- tampering with the operation of the computer or attempting to use it for any function other than taking the examination

INSTRUCTIONS FOR OCC EXAMINATION VIA TEST CENTER *(continued)*

Looking in the direction of the computer monitor of another candidate during the examination may be construed as evidence of copying or attempting to copy, and a report of such behavior may result in a determination of irregular behavior.

APPLICATION FOR OCC EXAMINATION

*American Osteopathic Board
of Orthopedic Surgery*

Submit the following:

1. This signed application. [Two signatures are also required on next page of this form.]
2. Examination fee of \$2,700.
3. A copy of your unrestricted state license.
4. Application and fee must reach the office of the Executive Director of the American Osteopathic Board of Orthopedic Surgery prior to January 15th of the year the examination is given.

Applications submitted after January 15th, if accepted by the AOBOS, will be subject to a \$250 late fee. The examination fee is *Non-Refundable* after the January 15th application deadline.

State License: I hold an unrestricted license to practice in the state or territory where my practice is conducted. Yes No

I hereby affirm that I have been previously certified in orthopedic surgery by the American Osteopathic Board of Surgery or the American Osteopathic Board of Orthopedic Surgery, that I am a member in good standing of the American Osteopathic Association, and further that I will personally appear for the examination and supply suitable identification if requested.

READ AND SIGN THE FOLLOWING FORM

I hereby make application to the American Osteopathic Board of Orthopedic Surgery (AOBOS) for examination leading to primary certification in Orthopedic Surgery. This action is made in accordance with and subject to the Bylaws, and Policies and Procedures of the AOBOS and the American Osteopathic Association (AOA). I understand that the certifying examination is a proprietary document of the AOBOS and AOA and that I do not and will not have the right to review the examination or any examination questions at any time prior to or following the administration of the examination. I also understand that my examination score, subscale scores, and performance information shall be the property of the AOA and the AOBOS and understand they may provide such information on a confidential basis to the American Osteopathic Academy of Orthopedics (AOAO) for purposes of improving postdoctoral education programs.

I agree to disqualification from examination or from issuance of certification or to the surrender of such certification as directed by the AOBOS and/or the AOA in the event that any of the statements made by me in this application are false, or in the event any of the bylaws, rules, regulations, and requirements governing such examinations are violated by me, or in the event that I do not comply with any of the provisions of the Bylaws or Policies and Procedures of the AOBOS or the AOA.

I agree that my professional qualifications, including my moral and ethical standing in the osteopathic medical - profession and my competence in clinical skills, will be evaluated by the AOBOS and that the AOBOS may make inquiry of the persons named in my application and of other persons, such as authorities or licensing bodies, hospitals, program directors, and other institutions, as the Board may deem appropriate with respect to such matters.

I agree that the sources of all information furnished to the AOBOS in connection with its inquiry shall be confidential and not subject to disclosure, through legal process or otherwise, to me or any persons acting on my behalf. I agree that the AOBOS and the AOA shall be the sole judges of my credentials and qualifications for admission to the examination for certification.

I hereby release, discharge, exonerate, and agree to hold harmless the AOA, the AOBOS, their members, examiners, trustees, officers, representatives, and agents and free from any action, suit, obligation, damage, expense, claim, demand, or complaint by reason of any action they or any one of them may take in connection with this application, such certifying examinations, the grade or grades given with respect to any certifying examination, and/or failure of the AOBOS to recommend issuance to me of the certification, or the revocation of any certification issued pursuant to this application. It is understood that the decision as to whether my performance on any certification examination qualifies me for certification rests solely and exclusively with the AOBOS and the AOA, and that their decision is final. I also agree that the extent of any liability arising out of errors or omissions or other misconduct of the AOBOS or the AOA shall be limited to the amount of fees paid to the AOBOS and AOA in connection with the board certification process.

In the event that any dispute shall arise concerning the certification examination's content and/or administration, or any other issue relating to the certification process, I understand that the AOA has an administrative appeal process available and I agree to first pursue all available administrative appeals and internal reviews before pursuing any other forms of relief.

I further agree that Illinois law, without regard to its provisions concerning conflict of laws, shall apply to the resolution of any dispute that I may have with the AOBOS or AOA.

I have this date carefully read and agreed to full compliance with the forgoing.

I have hereunto set my hands this _____ day of _____, 20_____.

INSTRUCTIONS FOR OCC EXAMINATION VIA CLINICAL PATHWAY

*American
Osteopathic Board of
Orthopedic Surgery*

An alternate pathway for OCC certification was established in 2003. It is a practice based exam, which essentially involves performing a standard Part III Clinical Examination. This may be particularly attractive to those surgeons who have sub-specialized and may have difficulty with a general orthopedic surgery examination.

Due to the expense of arranging and contracting examiners, the charge for this service is \$6,500.

The completed application, surgical logs, and other application documentation requirements will be due in the AOBOS office by March 1st.

You will need to carefully read the information pertaining to the Part III Clinical Examination in the Handbook for Candidates for Board Certification, which can be downloaded from the AOBOS website, www.aobos.org

Once the application and all of the other required information is received by the AOBOS, surgical logs are reviewed by one of the AOBOS Board members. After approval of the logs, two clinical examiners will be assigned by the AOBOS to conduct the examination.

Please contact the AOBOS office via phone (800) 621-1773 EXT 8208 or e-mail aobos@osteopathic.org for further information.

APPLICATION FOR OCC EXAMINATION VIA CLINICAL PATHWAY

*American
Osteopathic Board of
Orthopedic Surgery*

The Clinical Examination is conducted at your practice hospital(s) usually during the months of June, July, and August. Time and place will be determined by you and the senior examiner.

Submit:

1. This signed application. [**Two signatures also required on next page of this form.**]
2. Examination fee of six thousand five hundred dollars (**\$6,500**).
3. Your logs should be submitted both typewritten and on computer disk. These logs shall include all cases (major/minor) performed for at least (12) twelve consecutive months since entering orthopedic practice. To be accepted—**NO LESS THAN 200 MAJOR CASES** must be documented.
4. A completed **Hospital Location Sheet**.
5. A copy of your unrestricted state license.
6. Mortality Review Summary Report. See Candidate Handbook for instructions.

State License: I hold an unrestricted license to practice in the state or territory where my practice is conducted. Yes No

I hereby affirm that the case logs attached to this application are surgical cases performed by me and are not first assists or the work product of any other person, and that further, I am a member in good standing of the American Osteopathic Association.

DEADLINE for application: March 1st.

READ AND SIGN THE FOLLOWING FORM

I hereby make application to the American Osteopathic Board of Orthopedic Surgery (AOBOS) for examination leading to primary certification in Orthopedic Surgery. This action is made in accordance with and subject to the Bylaws and Policies and Procedures of the AOBOS and the American Osteopathic Association (AOA). I understand that the certifying examination is a proprietary document of the AOBOS and AOA and that I do not and will not have the right to review the examination or any examination questions at any time prior to or following the administration of the examination. I also understand that my examination score, subscale scores, and performance information shall be the property of the AOA and the AOBOS and understand they may provide such information on a confidential basis to the American Osteopathic Academy of Orthopedics (AOAO) for purposes of improving postdoctoral education programs.

I agree to disqualification from examination or from issuance of certification or to the surrender of such certification as directed by the AOBOS and/or the AOA in the event that any of the statements made by me in this application are false, or in the event any of the bylaws, rules, regulations, and requirements governing such examinations are violated by me, or in the event that I do not comply with any of the provisions of the Bylaws or Policies and Procedures of the AOBOS or the AOA.

I agree that my professional qualifications, including my moral and ethical standing in the osteopathic medical - profession and my competence in clinical skills, will be evaluated by the AOBOS and that the AOBOS may make inquiry of the persons named in my application and of other persons, such as authorities or licensing bodies, hospitals, program directors, and other institutions, as the Board may deem appropriate with respect to such matters.

I agree that the sources of all information furnished to the AOBOS in connection with its inquiry shall be confidential and not subject to disclosure, through legal process or otherwise, to me or any persons acting on my behalf. I agree that the AOBOS and the AOA shall be the sole judges of my credentials and qualifications for admission to the examination for certification.

I hereby release, discharge, exonerate, and agree to hold harmless the AOA, the AOBOS, their members, examiners, trustees, officers, representatives, and agents and free from any action, suit, obligation, damage, expense, claim, demand, or complaint by reason of any action they or any one of them may take in connection with this application, such certifying examinations, the grade or grades given with respect to any certifying examination, and/or failure of the AOBOS to recommend issuance to me of the certification, or the revocation of any certification issued pursuant to this application. It is understood that the decision as to whether my performance on any certification examination qualifies me for certification rests solely and exclusively with the AOBOS and the AOA, and that their decision is final. I also agree that the extent of any liability arising out of errors or omissions or other misconduct of the AOBOS or the AOA shall be limited to the amount of fees paid to the AOBOS and AOA in connection with the board certification process.

In the event that any dispute shall arise concerning the certification examination's content and/or administration, or any other issue relating to the certification process, I understand that the AOA has an administrative appeal process available and I agree to first pursue all available administrative appeals and internal reviews before pursuing any other forms of relief.

I further agree that Illinois law, without regard to its provisions concerning conflict of laws, shall apply to the resolution of any dispute that I may have with the AOBOS or AOA.

I have this date carefully read and agreed to full compliance with the forgoing.

OCC COMPONENT 4: PRACTICE PERFORMANCE ASSESSMENT & IMPROVEMENT

*American
Osteopathic Board of
Orthopedic Surgery*

Each physician in OCC must engage in continuous quality improvement through the comparison of their personal practice performance measured against national standards for orthopedic surgery.

Component 4 is a NEW requirement for maintaining board certification in orthopedic surgery.

The Practice Performance Assessment and Improvement component will be module based, requiring the completion of one module during each three-year CME cycle. The AOBOS has developed these modules in conjunction with the American Osteopathic Academy of Orthopedics (AOAO).

Fifteen (15) preliminary modules have been developed in following topic areas:

- Peri-Operative Care for Total Hip/Total Knee and Hip Fracture
- Distal Radius Fracture
- Herniated Lumbar Disc Treated Operatively
- Knee Arthroscopy
- Informed Consent
- Non-Operative Carpal Tunnel
- Operative Carpal Tunnel
- Pediatric Supracondylar Humerus Fracture
- Non-Operative Ankle Fracture
- Operative Ankle Fracture
- Peri-Operative Safety
- Orthopedic OMT
- Non-Operative Shoulder Impingement
- Operative Shoulder Impingement
- Lower Extremity Long Bone Intramedullary Nailing

OCC COMPONENT 4: **(CONTINUED)**

*American
Osteopathic Board of
Orthopedic Surgery*

Each module will be available online through a link on the AOBOS website, or by going directly to the O-CAT™ system website www.ostcat.com, and will consist of a physician logging ten (10) consecutive cases, in the module topic area, from the physician's personal practice. The individual physician's module results will be measured against national standards. If the results fall below acceptable thresholds, there will be a required educational activity followed by a reassessment in the same module with 10 new consecutive cases. All physician logged cases are subject to audit.

Since these modules take some time to complete, it is highly recommended each physician begins their required module in the first or second year of the CME cycle.

The AOBOS currently has these initial 15 modules available to physicians, with additional modules being developed as necessary.

An example of one of the Practice Performance Assessment and Improvement Modules is presented below.

Module 1: Peri-Operative Care for Total Hip/Total Knee and Hip Fracture

1. Has patient been risk assessed for DVT?
2. Was DVT prophylaxis administered?
3. Were IV antibiotics administered within one (1) hour of incision?
4. Were IV antibiotics discontinued within 24 hours?
5. If a Foley catheter was used, was it discontinued within SCIP guidelines?
6. Did discharge instructions include instructions for progressively increasing mobility?

The currently established rules/guidelines for measurement are 10 consecutive charts for review (subject to audit), 100% compliance for all questions for nine of the ten charts.

OCC COMPONENT 4: (CONTINUED)

*American
Osteopathic Board of
Orthopedic Surgery*

All of the AOBOS' Practice Performance Assessment and Improvement (PPA) modules will be delivered online through software developed by Meaningful Measurement's Osteopathic-CAT (Physicians Continuous Assessment & Training) system.

The following information will assist you in entering the Osteopathic-CAT online system.

Before you can enter chart information into the O-CAT™ system, you will be required to complete a user profile. O-CAT™ will assign your user id to the email addresses entered in the registration process.

The screen below is the opening screen you will see each time you use O-CAT™ by either clicking on the link from the OCC page of the AOBOS website or going to the Osteopathic-CAT website at www.ostcat.com

To create your User Login information, click the red **HERE** link to enter your profile information.

The screenshot shows the Osteopathic-CAT website home page. At the top left is the logo 'Osteopathic-CAT Physicians Continuous Assessment & Training'. Below the logo are navigation links for 'HOME' and 'REGISTER HERE'. The main content area is split into two columns. The left column contains a 'PHYSICIANS REGISTER BY CLICKING **HERE**. IF YOU HAVE ALREADY REGISTERED, USE THE BOX TO THE RIGHT TO LOGIN.' section, followed by a 'PATIENT/STAFF SURVEY' section with a 'TAKE SURVEY' button. Below this is a paragraph about the survey's purpose and confidentiality, followed by a 'Thank you!' message and a 'PLEASE NOTE' section regarding browser requirements (Chrome) and pop-ups. The right column is titled 'PHYSICIAN LOGIN' and contains input fields for 'Email' and 'Password', a 'Remember my login' checkbox, and a 'Login' button. At the bottom left of the page, there is a copyright notice: '© Copyright 2015 Osteopathic-CAT'.

For established users, enter your login information under **PHYSICIAN LOGIN**.

OCC COMPONENT 4: (CONTINUED)

*American
Osteopathic Board of
Orthopedic Surgery*

When using the Osteopathic-CAT system for the first time, you will be required to pay the \$295.00, two year subscription fee to gain unlimited access to all of the orthopedic surgery PPA modules as well as other core competency modules developed by Meaningful Measurements to fulfill the Component 4 requirements.

Since the AOBOS does not use a voucher system for the subscription fee, you will click on the **No Voucher Code – Regular Registration** button.

REGISTER

PLEASE FILL OUT THE FORM BELOW WITH YOUR CORRECT INFORMATION TO REGISTER.
YOUR CONNECTION TO THIS SITE IS SECURED.

 VERIFIED BY
click 14.08.15 17:28 UTC

Note: Your board may require a separate registration for OCC prior to awarding credit for lessons and/or PPAs. If you are unsure whether you are registered, please check with your board to be sure you are registered and ready to receive credit.

Please use a valid email address. The system needs to send information, feedback, and decisions from your board. Make sure that the email address entered for registration is one that you have access to. Please add customerservice@osteopathic-cat.com to your email contacts.

OCAT is \$295.00 for a 3 year subscription.

Voucher Code:

You will then enter your profile information and click on the [Pay Now and Register](#) button. Once the registration process is completed, you will move to the Home screen of the Osteopathic-CAT system, as seen below.

OCC COMPONENT 4: (CONTINUED)

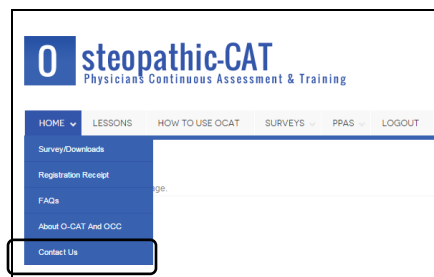

*American
Osteopathic Board of
Orthopedic Surgery*

From this Home screen you can access the orthopedic surgery PPA modules by clicking on the **PPAS** option and choosing **PPA topics**. Choose the module you would like to complete from the list of orthopedic surgery PPA modules.

For information on how to use the PPA module software, online instructions are available on this Home screen from the drop-down list under PPAs select **How To Use PPA**.

Additional information/help for the Osteopathic-CAT system can be accessed from the **FAQs** available from this same menu bar at the top of the Home screen. For any questions or issues requiring more involved support for the PPAs, choose the **Contact Us** option for one on one help.

OCC COMPONENT 4: **(CONTINUED)**

*American
Osteopathic Board of
Orthopedic Surgery*

Once the data for the 10 consecutive charts is entered for the PPA module, and the module is finished, the AOBOS will be notified and a designated Reviewer will assess the results. The individual physician's module results will be measured against national standards and either be approved as complete (meeting or exceeding the benchmarks) or sent back for remediation. If remediation is required, the suggested PPA educational activity will be required. After completion of the educational portion of the process, 10 new consecutive charts in the same PPA module topic will need to be collected to reassess the topic and show improvement over the first module results. Once improvement in the module topic is measured, the module will be marked as complete.

The AOA's OCC software platform will be notified of the successful module completion and the AOA will assign CME credit for successfully finishing the PPA component. Ten category 1B credits will be issued for the successful completion of the module.

OCC COMPONENT 5: CONTINUOUS AOA MEMBERSHIP

*American
Osteopathic Board of
Orthopedic Surgery*

Continuous AOA membership is a required component for OCC compliance. Membership in the AOA provides each physician with connections to the professional osteopathic community, online technology, practice management assistance, national advocacy for DOs and the profession, professional publications and continuous medical education opportunities.

All diplomates must continuously maintain membership in the AOA or Canadian Osteopathic Association and pay all applicable fees.

AOA's OCC SOFTWARE PLATFORM (MY OCC)

*American
Osteopathic Board of
Orthopedic Surgery*

All registered OCC participants have access to the AOA's new OCC software platform through the AOA website, www.osteopathic.org – under My OCC. This new system is designed to allow physicians to monitor their progress in all five (5) components throughout the OCC cycle.

The following page contains an image of the screens that will be available after signing in to the AOA's website.

The first section displays the physician's certifications (and dates).

The Component 1 area shows the states where the physician has been licensed and whether those licenses are Active or Inactive.

The Component 2 – Lifelong Learning/Continuing Medical Education section monitors the physician's progress through the current CME cycle, following four key components for orthopedic surgery:

- Progress through the required 120 CME credits
- Progress through the 50 required specialty CME credits
- Progress through the 15 required 1A CME credits from osteopathic (AOAO) programs
- Progress through the required 15 self-assessment credits

The Cognitive Assessment section allows a physician to view the examinations that must be taken and the dates of eligibility for the examination/s.

Modules completed for the Practice Performance Assessment and Improvement portion of OCC through the Osteopathic-Cat system will be recorded in the Component 4 section. This section also allows a physician to add activity which might be outside of those offered by the AOBOS and check on the Board's approval of this added activity.

The last portion of the screen monitors Component 5 – Continuous AOA membership, displaying the status and expiration date of the physician's current membership.

For support of 'My OCC' platform, click the Help button at the bottom of screen, below Component 5.

NON-TIME-LIMITED VS TIME-LIMITED CERTIFICATE HOLDERS

*American
Osteopathic Board of
Orthopedic Surgery*

At this time, OCC is voluntary for non-time-limited (formerly called lifetime) certificate holders.

Failure in the OCC process will in no way result in the loss of certification for physicians holding lifetime certification. Maintaining AOA membership, including meeting CME requirements and payment of the annual AOA registration fee, is required to maintain non-time-limited certification.

The AOA and AOBOS strongly encourage non-time-limited certificate holders to participate in OCC, particularly as more states begin to require a maintenance of certification process in order to maintain licensure.

Physicians holding a non-time-limited general orthopedic surgery certification and a time-limited Subspecialty Certification in Hand Surgery must fully participate in the OCC process for Hand Surgery in order to maintain the subspecialty certification and be deemed compliant with OCC. The OCC process remains voluntary for the general orthopedic surgery certification.

For physicians holding time-limited certification, failure to successfully complete the OCC process will result in the loss of certification at such time as the current time-limited certificate expires.

PATHWAY FOR OCC (CERTIFICATION) REINSTATEMENT

*American
Osteopathic Board of
Orthopedic Surgery*

The AOBOS adheres to the Policies and Procedures of the AOA's Bureau of Osteopathic Specialists for physicians seeking to regain OCC certification in orthopedic surgery.

OCC Reentry Process

Physicians whose time-limited certification has been deemed inactive for any reason may petition the AOA's Certification Compliance Review Committee to reactivate the certification. This process also applies to non-clinical and academic physicians reentering clinical practice and to former non-time-limited certificate holders who did not maintain their board certification as required.

- Physicians reentering the certification process within three (3) years of the expiration or inactivation of their certification may reenter the process by sufficing any outstanding OCC requirements not fulfilled when the certification became inactive. The date of certification will be effective on the date that all requirements have been satisfied.
- Physicians wishing to reenter the certification process three (3) or more years following the expiration or inactivation of their certification must take the Component 3 Cognitive Assessment at the next available administration and immediately begin the OCC process through participation in a Component 4 activity. Specialty certifying boards may also require additional remedial activities such as training or CME may also be required.

DUAL CERTIFICATION 1 - OSTEOPATHIC AND ALLOPATHIC CERTIFICATES

*American
Osteopathic Board of
Orthopedic Surgery*

Physicians participating in the Maintenance of Certification (MOC) process through one or more of the ABMS-recognized certifying boards may petition to submit their practice performance assessment activities completed through MOC and apply them to their OCC Component 4 requirements. However, the AOBOS may also require an osteopathic component to satisfy Component 4 requirements.

DUAL CERTIFICATION 2 - TWO PRIMARY AOA CERTIFICATES

*American
Osteopathic Board of
Orthopedic Surgery*

An orthopedic surgeon, who is dually boarded through two AOA specialty certifying boards, will need to complete Component 3 – Cognitive Assessment; Component 4 – Practice Performance Assessment and Improvement; and complete the 50 hours of specialty credit CME hours in both primary certifications.

Because of the unique nature of each specialty, physicians holding two or more general certifications administered through the AOA must meet all criteria for both Specialty Certifying Boards' OCC processes. However, CME earned will apply to both Specialty Certifying Boards, with the exception of the specialty CME requirements for each specialty and/or subspecialty certification.

SUBSPECIALTY CERTIFICATION AND OCC

*American Osteopathic Board of
Orthopedic Surgery*

If an orthopedic surgeon holds a subspecialty certification in addition to their primary orthopedic surgery board certification, several OCC requirements will be required to maintain the subspecialty certification.

Subspecialty certification certificate holders must have a minimum of 13 hours (25%) of their 50 specialty credits for every three year CME cycle in the subspecialty certification area.

A minimum of one Component 4 - practice performance assessment and improvement module must be completed in the subspecialty certification area every 10 years (one of the three required each OCC cycle).

Physicians holding a non-time-limited general orthopedic surgery certification and a time-limited Subspecialty Certification in Hand Surgery must fully participate in the OCC process for Hand Surgery in order to maintain the subspecialty certification and be deemed compliant with OCC. The OCC process remains voluntary for the general orthopedic surgery certification.

OCC AND MAINTENANCE OF LICENSURE (MOL)

*American
Osteopathic Board of
Orthopedic Surgery*

A number of state licensing boards are currently considering Maintenance of Licensure (MOL) programs, with more states to follow in the next few years.

The Federation of State Medical Boards (FSMB) has recommended that state legislation include that participation in OCC be deemed as having met the state's MOL requirements.

NON-CLINICAL ORTHOPEDIC PHYSICIANS AND OCC

*American
Osteopathic Board of
Orthopedic Surgery*

A non-clinical physician is a physician with no patient contact. Those physicians who treat no patients may apply for the clinically inactive certification status, which allows diplomats to propose Component 4 activities that are applicable to their current role in osteopathic medicine. The AOBOS will determine the acceptability of the proposed activities. All other components of OCC must be satisfied, including the examination.

Physicians must attest to their clinically inactive status through petition to the AOBOS. This status may also apply to academic physicians who do not supervise residents providing patient care and unemployed physicians.

Upon reentry to clinical practice, physicians must notify the AOBOS within thirty (30) days following return to patient care.

The AOA will report clinically inactive status to the public and any credentialers through the profile service of the American Osteopathic Information Association (AOIA) and the website www.doprofiles.org.

FELLOWSHIP EXEMPTION IN OCC

*American
Osteopathic Board of
Orthopedic Surgery*

AOA board certified physicians who begin fellowship training are exempt from participation in Component 4 of OCC during the training period only.

Contact the AOBOS to determine the OCC requirements for which this situation applies upon re-entering full participation in OCC.

OCC REENTRY PROCESS

*American
Osteopathic Board of
Orthopedic Surgery*

Physicians whose time-limited certification has been deemed inactive for any reason, may petition the BOS' Certification Compliance Review Committee to reactivate the certification. This process also applies to non-clinical and academic physicians reentering clinical practice and to former non-time-limited certificate holders who did not maintain their board certification as required.

Physicians reentering the certification process within three (3) years of the expiration or inactivation of their certification may reenter the process by sufficing any outstanding OCC requirements not fulfilled when the certification became inactive. The date of certification will be effective on the date that all requirements have been satisfied.

Physicians wishing to reenter the certification process three (3) or more years following the expiration or inactivation of their certification must take the Component 3 – Cognitive Assessment at the next available administration and immediately begin the OCC process through participation in a Component 4 activity. The AOBOS may also require additional remedial activities such as training or CME may also be required.
